RE: Videographer and AV Technician

Hello,

My name is Brandon Harris-Lowe, and I am a senior student at Lakehead University, in the Lakehead-Georgian computer science program. I have been working in the AV/IT Industry for 4 years, and think that my skillset would be a great asset to your team.

The skills I have learned at Lakehead, Georgian and from professional freelance / contract work such as being the Video lead for the last 2 years on the Emerging artists Showcase Tour (2024) and the Barns 2 Beaches Tour (2025), as well as being the video tech on several other productions, and managing the technical side of weekly online/in person workshops, which makes me a good choice for this role as I know the ins and out of video and audio requirements on tours and productions of various sizes. I have experience building touring infrastructure such as a mobile video operations roadcase, repairing touring equipment(re-terminating ethernet and soldering XLR), as well as general IT tasks such as account provisioning, inventory management and network management.

I would truly appreciate it if you would take some time to look through my attached resume. I think I will be a very useful asset to your company, and look forward to hearing from you about working here this summer.

Best Wishes,
Brandon Harris-Lowe
